The FCC has given Lync, one of the companies competing with SpaceX, T-Mobile, and Apple, a license to operate a commercial satellite-to-mobile communication service (though currently it's only for coverage outside the US). Lync will still have to find a mobile carrier to work with and get FCC approval for that specific service, but it's now cleared an important hurdle — plus, the company's CEO told Pierce Wireless that it's currently "working with testing" for two US carriers. Android updates its operating system regularly to include new features, fix glitches, and make your Android device run more smoothly. The newest version is Android 10, and it offers some great features you'll want to get your hands on. Installing the new OS is not too difficult. Before you install it, you have to make sure your phone is compatible with it and able to receive the latest update, which we can help you with. Then, we'll give you some advice about getting the update. Make sure you have the right phone Julian Chokkattu/Digital Trends Unfortunately, not every Android phone is going to be eligible for the Android 10 update. If your device is over 2 years old, has already received two major Android OS updates, or is a lower-end budget device, you might not be seeing Android 10 at all. We've collected rumors for each of the manufacturers in our Android 10 updates post, so you can check there for the latest news on a variety of devices. However, there are some devices which are a given. All of Google's Pixel phones have already received the update, while the latest flagship phones — like the Samsung Galaxy Note 10 range and Huawei's P30 range — are also highly likely to get the update. You can also safely assume any phone that took part in the Android 10 beta is likely to receive the update. The Android 10 beta program was the largest in Android's history, with an amazing 25 devices from 13 manufacturers taking part. Here's the list of phones that supported the Android 10 beta: Asus ZenFone 5Z Essential Phone Huawei Mate 20 Pro LG G8 ThinQ Nokia 8.1 OnePlus 7 Pro OnePlus 7 OnePlus 6T Oppo Reno Realme 3 Pro Sony Xperia XZ3 Tecno Spark 3 Pro Vivo X27 Vivo Nex S Vivo Nex A Xiaomi Mi 9 Xiaomi Mi Mix 3 5G Google Pixel 3a Google Pixel 3a XL Google Pixel 3 Google Pixel 3 XL Google Pixel 2 Google Pixel 2 XL Google Pixel Google Pixel Xl. Back up your data While the final Android 10 build won't be as risky as getting involved in a beta program, it's still a really good idea to backup your Android devices regularly and before committing to the upgrade. Make sure to back up your Android phone to your PC to make sure your precious data is as safe as houses. How to install Android 10 So your phone has been confirmed to be getting the Android 10 update — hurrah! Now what? Well, you may have to wait a while. Some manufacturers take a little while to push the update out, whether it's the speedier companies like Nokia, or the slowpokes of Samsung and LG. That usually comes down to how much work they have to do, and creating manufacturer UIs like Samsung's upcoming One UI 2.0 can take a significant amount of time. Thankfully, when your update is ready, it'll be pushed through to your phone and you'll be prompted to upgrade. You can either upgrade right then and there, or you can choose to have your phone install it at a later time when it's more convenient — you can even have it update overnight. If you're really, really excited about it (like us) then you can manually check to see if the update has come in. To do so, head to Settings > System > Advanced > System update > Check for update. If you're not using a stock Android phone, then your path to finding the updates section may be slightly different — for instance on Samsung phones, you can access Software update directly from the Settings app — but it's almost always somewhere in your Settings. That's really all there is to updating to Android 10. Unsure of what's new in the operating system? Check out our Android 10 review. Editors' Recommendations Playing games while on the move can be tricky. You're dealing with the relatively small screen of a smartphone and short amounts of free time. Meanwhile many games focus on longer play sessions and small, detailed controls. For tablet play that's fine, but we're rounding up bite-sized, finger-friendly fun available on Android that's best suited for smartphones. Super Hexagon Super Hexagon is an action game where players dive through a maze of walls that are continually spinning and falling inwards. A constant, disorienting motion makes accomplishing this insanely difficult, and an amazing soundtrack doesn't help the nerves either. As you beat each stage, a harder version of the level is unlocked. Before long, things get well and truly ridiculous. Super Hexagon is the game of choice for gluttons of punishment. Download Super Hexagon (opens in new tab) (\$2.99) Dumb Ways to Die Players in Dumb Ways to Die have to survive a barrage of deadly mini-games which get harder as time goes on. These include swatting away deadly wasps, shooting piranhas away from your crotch, and holding onto balloons so you don't dive onto the tracks. Three adorable animated deaths and it's game over. As you progress, your collection of dancing cartoon corpses grows. All in all, Dumb Ways to Die is a fantastically morbid test of reflexes. Download Dumb Ways to Die (opens in new tab) (Free, ads) Despicable Me: Minion Rush Despicable Me: Minion Rush is an endless runner featuring the adorable little creatures from the popular animated film. Players have to swipe left and right to avoid incoming obstacles and collect bananas and power-ups. Camera angles and control types change regularly, demanding players stay on their toes, and with lots of unlockable content, including costumes and new running areas, the game stays fresh for a long time. Despicable Me: Minion Rush is hugely entertaining and a great way to kill a few minutes. Download Despicable Me: Minion Rush (opens in new tab) (Free, IAPs) Dots Dots is an easygoing puzzle title that involves lining up identically-colored dots as quickly as possible. Gather up dots by drawing a line through them, and get bonuses for creating closed loops. At the end of a round, either by time or number of moves, the gathered dots can be spent on power-ups to help in future matches. Pass-and-play multiplayer is also available, if you want to see how you stack up against your buddies. Dots is easy to pick up, and great to look at. Download Dots (opens in new tab) (Free, IAPs) Canabalt Canabalt is a fast and furious endless runner with a minimalist art style. All you have to do is tap the screen anywhere to jump gaps between the buildings you're running over. There are a lot of other one-touch endless runners on Android, but Canabalt excels for its high speed, fluid animation, and short play cycle. You won't find any in-app purchases, power-ups, or anything like that here; the only challenge is to make it farther than your last run before faceplanting into another skyscraper. Despite its age, Canabalt is a pure, pared-down runner. Download Canabalt (opens in new tab) (\$2.99) Fruit Ninja Fruit Ninja is a hugely popular action game. Players make quick swipes to slice fruit tossed in the air before it hits the ground, but be sure not to hit the bombs. Though it's an older game, the developer has been updating regularly with new content. There's a premium currency, starfruit, that players earn through gameplay which is used to buy these bomb deflectors, bonus fruit, and new blades. Fruit Ninja has weathered the test of time and remains accessible and fun. Fruit Ninja (opens in new tab) (\$0.99, IAPs) Flick Soccer For a casual futbol game, Flick Soccer is great. It presents a variety of kicking games where players have to race against the clock, hit targets, and otherwise score some goals. The swipe recognition is highly polished and results in some very natural-feeling arcs. Even after the kick has landed, you can alter the trajectory with a quick swipe. Download Flick Soccer (opens in new tab) (\$1.99) Tetris Blitz Tetris Blitz is a reimagining of the classic block-dropping puzzle. Random blocks spawn at the top of the screen, and you have to tap a location to drop them so a solid row of blocks is formed. That row disappears, and you get points; the more rows you take out at once, the more points you get. The catch is that you only have two minutes to score as many points as possible. They've also tossed in power-ups which help you along the way, and a Frenzy meter which fills up as you score points and ultimately initiates a massive spout of points bonuses. Tetris Blitz is a fun, fast twist on a classic. Download Tetris Blitz (opens in new tab) (Free, IAPs) Major Mayhem Major Mayhem is side-scrolling shooter with dirt-simple controls. Players tap on secret agents and ninjas as they pop out from behind cover to open fire. Save scientists from the evil clutches of ne'er-do-wells, earn coins, and unlock new weapons and outfits. Major Mayhem is a goofy, action-packed ride with lots of flavor. Download Major Mayhem (opens in new tab) (Free, IAPs) Beach Buggy Blitz In Beach Buggy Blitz players drive along the beach for as long as possible. There are plenty of obstacles along the way that slow you down if you hit them, and if you can't make the next checkpoint before the clock runs out, it's back to the starting line. Coins are scattered along the route which fund upgrades like new rides and power-ups. Dust, water, and lighting effects are all hugely impressive, and add up to a surprisingly rich experience. Though Beach Buggy Blitz is kid-friendly, it's a ton of fun for everybody. Download Beach Buggy Blitz (opens in new tab) (Free, IAPs) Your favorite games for Android phones?
